KeyWord Driven Framework In Selenium - Part -3 || Check-In your code into GIT Repo - KeyWord Driven Framework In Selenium - Part -3 || Check-In your code into GIT Repo by Naveen AutomationLabs 7,583 views 5 years ago 9 minutes, 55 seconds - In this series, I'm going to cover **full keyword driven framework**, approach which can be implemented for any web UI application.

KeyWord Driven Framework In Selenium - Part -2 || Coding \u0026amp; Implementation - KeyWord Driven Framework In Selenium - Part -2 || Coding \u0026amp; Implementation by Naveen AutomationLabs 42,847 views 5 years ago 1 hour, 12 minutes - In this series, I'm going to cover **full keyword driven framework**, approach which can be implemented for any web UI application.

Creating a Maven Project

Add My Selenium Code

Base Page Class

We Need Browser Name and on the Basis of that It Will Chop Compare if It Is Equal to Chrome Then Initialize Your Chrome and Same Thing We Can Write It for Firefox Also over Here Right So this Is Only When In Excel File You Have Written some Blank Value or any Value if It Is Empty or Blind Fine but Let's See in Excel File User Button some Things so It this Condition Will Not Be Satisfied so It Will Come inside the Edge Spot Then What Am Already So this Initialize Driver Will Return the Driver So Can that I Take

this Is for inside It Right So I Got My Driver from Here Right So that's Why this Driver I Have Already Declared over Here at the Class Level so that's Why I Am Declared inside the Keyword Driven Engine Okay and Once this Is Done I GotTa Have a Driver and Then Break It It Means this Is a Statement of Switch Case in Java That Switch First Case Is Done Then Simply Break It Okay So Similarly Guys Need To Create Multiple Cases-Now My Second Cases Alright Case What Is the Second Case So for every Case You Have To Write like this Enter the Url It Means My Second Case Is Enter the Url What Do You Want if It Is Again Let's See Same Thing You Have Written Them

If It Is Equal to this and Then by Dot Id Your Locator Value and What Do You Want Okay So I Got My What I Got My One Web Element over There So Can I Write like this Try It without Find Element I Will Store in a Particular Web Element Let's See the Length Is Equal to this Right and Then Central Encode this Particular Variable over Here but on this Particular Web Element What Do You Want You Want To Perform Send Keys Why You Want To Do Advert Clip because for Send Keys all Id Also I Can Use It for Send Is in the Same

So Let Me Close All the Chrome Browser That We Have Already Opened I Have Already Opened So Many Browsers Let Me Close All the Browsers and Then Let's Run It Again Okay so Just a Minute Yep this Conference Will Now Be Recorded So Let Me Do One Thing What Exactly I Have Done that this Is My Try Block because of Small Pointer Exception and I Have Captured the Entire App any Little Pointer Exceptions Coming Put inside a Try Block and Put Inside Okay Handle It inside the Catch Block Now Let's Run It I Think Now It Should Work Fine

And I Have Captured the Entire App any Little Pointer Exceptions Coming Put inside a Try Block and Put Inside Okay Handle It inside the Catch Block Now Let's Run It I Think Now It Should Work Fine So Let Me Run as Test in G Now You Will See Guys Browser Is Getting Imaged Yes and Yes and Drink the Username Password Clicking on Login Button Again Opening the Browser and Clicking on Sign Up Link and Close the Browser See Right So Whatever that Code That You Have Written Whatever the Things We Have Written over Here It Will Do the Exact Same Thing with a Resume

So this Is Called Keyboard Rivet I Know this Is like Little Confusing Not Confusing Exactly Lot of Permutation Computation That You Have To Write because of You Have To Read the Locator Action and Accordingly You Have To Add Just Your F Else Conditions over There but It Looks Little Tough but I'M Telling You It's Very Easy and See Your Desk Is What Fast Right So Main this Is Your Keyword Engine So if You Want that I Can Publish this Particular Code I Will Write this Code to My Great Repository and You Can Check this Code and Just Have a Look I'M Putting Holidays You Will Be Liking It this Is like Really Good Stuff Okay Now You Can Give this Particular Extension to Anyone You Can Write N Number of Okay Test Steps Over There Make Sure that Okay You Have To Write the Proper Locator Xbox Is Equal to this and Whatever the Action You Want To Do that and the Same Action Should Be Available in Your Execution Engine File One More Thing if Send Case Is Already Curative
